

HOUSE OF ASSEMBLY
NEWFOUNDLAND AND LABRADOR

October 5, 2001

Town Council
Nain, Labrador
ADP 1LO

726-9/20/01

Dear Sir/Madam:

As you are well aware, the Public Utilities Board (PUB) will be holding Public Participation Days in Goose Bay at the Labrador Inn on October 18th and 19th as Newfoundland Hydro's General Rate Review Application is analyzed at a public hearing.

As per my recent discussion with the mayors at the Management Committee Meeting in Halifax, this issue is of great importance to all communities in the district. I am hoping there will be representation made from the communities at this hearing. The PUB is willing to pay for travel and accommodations for representatives from the district to attend this very important hearing in Goose Bay to speak on your community's behalf.

The provincial government has appointed Mr. Dennis Browne, Q.C. as Consumer Advocate for the hearing. If you have any questions relating to your representation at this hearing, please contact my office.

Sincerely,

Pat Ad
