\* Mr. Brockman makes no representation that the cost of crude oil is equal to Bunker C oil at Holyrood, however, Mr. Osmond at page 2, lines 37 - 42 of the November 19, 2001 transcript states, "I think it was...when you see the TV, they talk about crude as opposed to No. 6 fuel, and when you do the conversions from crude to Bunker C, with the exchange they pretty well work out the same, so I think it was \$18 US for crude which equates to about \$18 for No. 6 fuel."
