Dear Sir:

**Re: Hydro Mobile Radio System**

This letter shall be confirmation of the Department of Works, Services & Transportation's intention to participate in the funding and usage of the proposed new Hydro mobile radio system. At this preliminary stage, the degree of participation and funding process remains to be decided.

However, it is estimated that the Department's level of participation will be as per the present system provided the costs are as presented in last week's meeting between officials of both agencies.

Trusting this outlines the Department's position on this proposal.

Yours sincerely,

A handwritten signature in cursive script that reads "K. White".

Executive Director (Roads)
