

Experience of Mark Drazen

My experience covers regulatory proceedings, contract negotiations, strategic planning and economic analysis of utility service throughout Canada and the United States. This experience covers electric, gas, oil pipeline, telecommunications and water utilities. I have appeared as an expert witness before federal agencies (the Federal Energy Regulatory Commission, the National Energy Board, the Federal Communications Commission and the Canadian Radio and Telecommunications Commission), before Provincial regulators in six Provinces (Alberta, British Columbia, Nova Scotia, Ontario, Québec and Saskatchewan) and state regulators in 39 states in the U.S.

Drazen Consulting Group offers economic, strategic planning and regulatory consulting services to clients that include industrial utility users, schools, hospitals, utilities and government agencies. Our founding firm (Michael Drazen and Associates) was established in 1937.

Our work covers energy economics, utility regulation and utility industry restructuring.

I am a graduate of the Massachusetts Institute of Technology, with the degrees of Bachelor of Science in Mathematics, Master of Science in Electrical Engineering, and Electrical Engineer. I have taken courses in accounting at the graduate school of Business Administration at Washington University (St. Louis).
