

1 Q. For the customer groups subject to the Rate Stabilization Plan, provide a
2 table showing the average rate in cents/kWh, the average rate including the
3 Rate Stabilization Plan adjustment in cents/kWh, and the average rate that
4 would have been paid if all costs included in the rate Stabilization Plan were
5 recovered in the year (as opposed to only one third). Provide these data for
6 each of the past 10 years and projected for the next five years.

7

8 A. Please see response to IC-191 for historic and projected rates. The attached
9 table shows what rates would have been if all costs included in the Rate
10 Stabilization Plan were recovered in the year (as opposed to only one third)
