

1 Q. Has Newfoundland Power consulted Newfoundland Hydro in reference to  
2 Newfoundland Power's project as outlined in the 2002 Capital Budget to  
3 construct primary and secondary lines to connect new customers to the  
4 electrical distribution system which may require additional supply capacity?

5

6

7 A. Newfoundland Power has not consulted Hydro with respect to these items,  
8 however, Hydro would expect that any requirement for additional supply  
9 would be included in the aggregate load forecast that Newfoundland Power  
10 provides Hydro annually.
