

1 Q. On page 9, line 30 and page 10, lines 1 to 2, Mr. Brickhill states “Were the
2 RSP eliminated, however, it would be appropriate for Hydro to seek an
3 alternative rate form in order to maintain the stability of its revenues”. In Mr.
4 Brickhill’s experience, what do other utilities do to maintain the stability of
5 their revenues?
6
7

8 A. Other utilities employ weather normalization provisions, fuel adjustment
9 charges, demand charges and customer charges to maintain stability of
10 revenues.
