

- Q. Provide an estimate of mill demand at the ACI-Stephenville and ACI-Grand Falls mills that would be altered by the application of a seasonal TOU rate structure assuming that the ratio in rates between the periods November 1 to March 31 and April 1 to October 31 was approximately 1.5 to 1.
- A. ACI-Stephenville and ACI-Grand Falls would not be able to alter mill demand by the use of a seasonal TOU rate structure.
