

NLH 46 (Re: Dr. Wilson's Report, p. 27, graph) Do you agree that the horizontal axis of the figure of your Report represents the unit size of equipment, i.e., for distribution transformers, the kVA rating? Do you agree the vertical axis of the figure on p. 27 of your Report represents the unit cost of the equipment, i.e., for distribution transformers, the installed cost for each size transformer?

RESPONSE:

Yes.
