

- 1 Q. With regard to Hamilton's evidence page 16, lines 7 - 8:
- 2 1. Does the Interconnected Rural Customer class pay for the 138/25 kV
- 3 transformer losses at Bottom Waters?
- 4 2. If so, how do these losses get incorporated into the rural rate?
- 5
- 6
- 7 A. 1. The 138/25 kV transformer losses at Bottom Waters are allocated to
- 8 the Interconnected Rural Customer class.
- 9 2. Hydro doesn't design rates for the Interconnected Rural Customer
- 10 class. The rates for this group of customers are the same as those
- 11 charged by Newfoundland Power.
