

1 Q. Indicate the projected No.6 fuel charges to the RSP for each of the years
2 2002 to 2111 inclusive, as well as any other currently projected charges to
3 the RSP, the amounts of such charges projected to be passed on to NP and
4 IC respectively in each year, and what impact such RSP pass through is
5 projected to have (based on the assumptions and forecasts in Hydro's
6 application) on average firm rates charged in each year to NP and IC
7 respectively.

8

9

10 A. Projections are not available past the year 2005. Please see response to
11 PUB-59 for 2002. The RSP reports for 2003 to 2005 are attached and during
12 this period it is assumed for the purpose of these calculations that there is no
13 change in base rates or the price of No. 6 fuel included in the base rate.
14 Please see IC-191 for schedule showing impact of RSP on rates.
