

- 1 Q. Provide a copy of Hydro's answer to IC-8 from the 1995 Isolated Rural Rate
2 Hearing.
3
4
5 A. Please see the attached.

- Q. What was the average total cost per kilowatt hour for in each of 1992, 1993 and 1994:
- (a) for the Isolated Rural Areas generally?
 - (b) for the Labrador Isolated Rural Areas generally?
 - (c) for the St. Anthony-Roddickton Isolated Rural Area?
 - (d) for the Island Isolated Rural Areas excluding St. Anthony-Roddickton?
- A. Average total cost per kilowatt hour for the Isolated Rural areas is shown below. Since the Cost of Service for Isolated Rural Systems is calculated in total and not by geographical region, data for the other areas requested is not available.

Isolated Systems	1992	1993	1994
Costs (per IC-7)	34,990,968	34,541,647	35,084,936
kWh Sales (per IC-2)	86,493,000	87,000,000	87,265,000
Average total cost per kilowatt hour	\$0.40455	\$0.39703	\$0.40205
