

1 Q. Further to IC-73, the Rate Stabilization Plan for April 2001, page 14 shows
2 +\$696,000 rural change adjustment.

3

4 a. Fully explain the details of this charge.

5

6 b. How much of this charge was re-allocated to the Industrial
7 Customers?

8

9

10 A. a. Refer to the response to NP-206(a).

11

12 b. The amount of \$696,000 forms part of the total rural deficit to be re-
13 allocated, as do the credits included in the rural rate alteration. As
14 indicated in the response to IC-216, the allocation is based on year-to-
15 date amounts, and therefore varies from month to month, based on
16 actual activity. In April 2001, the rural allocation to Industrial
17 customers was 18.37% of the total rural amount, or approximately
18 \$128,000 of the \$696,000.
