

1 Q. Further to NP-131, does the 66 kV plant feeding 400L at Bottom Brook
2 Terminal Station, that has been proposed by Hydro to be treated as
3 specifically assigned to Newfoundland Power, provide any benefit to
4 customers other than Newfoundland Power?

5

6

7 A. The 66 kV plant feeding 400L at Bottom Brook Terminal Station does not
8 provide any benefit to customers other than Newfoundland Power.
