

1 Q. RE: p. B-28 Replacement of Insulators - TL229 (69 kV Wiltondale -
2 Glenburnie) (145,000)

3
4 20.1 What is the total purchase price of the 1050 insulators being
5 replaced? What is the labour cost? What other costs are involved?

6
7 20.2 How many outages occurred on this line in 1998? in 1999? in 2000?
8 How many of these can be attributed to failure of insulators? How
9 many can be attributed to other causes?

10
11
12 A. 20.1 The budget proposed for replacement of insulators on TL 229 actually
13 covers 150 units. The figure of 1050 units quoted in Hydro's 2002
14 Capital Budget submission is incorrect. Specific costs budgeted for
15 purchasing and installing the replacement insulators are as follows:

16

17	Material Supply	\$35,000
18	Labour	20,000
19	Engineering	20,000
20	Project Management/Environment	30,000
21	Inspection & Commissioning	10,000
22	Corporate O/H, IDC, Esc., Contingency	<u>30,000</u>
23	Total	\$145,000

24
25 20.2 There were no sustained outages on TL 226 in 1998, 1999 and 2000.
