

1 Q. Are there any incentive mechanisms (e.g. cash rebates for those who reduce
2 consumption) or other means (e.g. advertising of energy-saving devices or
3 appeals to reduce consumption when fuel prices rise) in place to encourage
4 customers in the Labrador and Island Isolated system and the Rural
5 Interconnected system to reduce consumption of electricity?
6
7

8 A. Hydro does not have any cash incentive mechanisms in place to encourage
9 reduction in consumption. Through it's HYDROWISE Program Hydro is
10 committed to providing consumers with the information they need to make
11 wise decisions and take actions to lower their energy costs. (More
12 information on the HYDROWISE Program can be found in CA-20 NLH.)
