

1     Q.     On page 9, lines 10 to 11 of Mr. Greneman's Pre-filed Evidence, he indicates  
2             that demands used were developed with the support of updated load data  
3             from other northern climate electric utilities in North America. Please provide  
4             further clarification of this statement including what data were used, and how.
