1	Q.	(a)	Explain whether or not the RSP encourages consumers to reduce
2			their consumption when fuel prices increase significantly.
3			
4		(b)	Has NLH ever conducted studies that assess the impact of the RSP
5			on total consumption of No. 6 fuel? If so, please provide copies of any
6			such studies.
7			
8			
9	Α.	(a)	The RSP provides a deferred signal concerning fuel prices. The
10			current RSP rates are based on a two-year write-off period for the plan
11			balance.
12			
13		(b)	No such studies have been conducted.
