

- 1    Q.    Provide a copy of Hydro's answer to IC-38 from the 1995 Isolated Rural Rate  
2           Hearing.  
3  
4  
5    A.    Please find attached the responses to IC-38 from the 1995 Isolated Rural  
6           Rate Hearing.

- Q.** What is the estimated cost of connecting the St. Anthony system to the Island Interconnected system in 1995 dollars? How will that cost be recovered?
- A.** The estimated cost of the St. Anthony/Roddickton Interconnection, if it were to come in service January 1, 1995 as assumed in NLH-2, is \$32.1 million. This cost will be recovered in future rates.
