

1 Q. Please indicate the demand values used in calculating the Industrial
2 customer billing determinants in Schedule 1.3.2 of Exhibit RDG1. Is this
3 value (2,136,000 kW) based on contracted demand, actual demand,
4 ratcheted demands, forecast billing demands? Please provide the billing
5 determinants by month for NP and IC values in this schedule.

6
7
8 A. Please see response to PUB-3 NLH for the monthly load forecast, and
9 response to IC-77 NLH for the calculation of billing determinants. The
10 Industrial Customers' demand billing determinants are based on the forecast
11 monthly Power on Order.
