

1 Q. Please indicate all 2004 costs associated with Hydro's diesel generation on
2 the Island Interconnected System, broken down by depreciation, return on
3 rate base, O&M, administration, fuel, inventory, and other costs. Please also
4 indicate all associated amounts for transmission and terminal stations
5 required only to interconnect the diesel generation to the grid.

6

7

8 A. The fully allocated costs associated with Hydro's diesel generation on the
9 Island Interconnected system for 2004 are \$1.4 million. Please refer to IC-13
10 (Rev.) NLH for the details associated with this amount.
