

1    Q.    Please provide copies of any recent condition assessments completed on the  
2           Island Interconnected gas turbines, along with estimates of the costs to  
3           address any required work identified.

4

5

6    A.    Hydro has not completed any recent condition assessments of its gas  
7           turbines on the Island Interconnected System. Hydro continues to perform  
8           routine maintenance and inspections to identify potential problems requiring  
9           major capital or operating expenditures. No such problems have been  
10          identified at this time.
