

1 Q. Does Hydro have a contract or agreement in place with NP to govern the
2 operation or credits related to NP's generation? If so, please provide a
3 copy?
4
5

6 A. No, Hydro does not have a contract in place with Newfoundland Power to
7 govern the operation or credits related to NP's generation. The basis for the
8 credit is that NP will operate its generation facilities when requested to do so
9 by Hydro, e.g. at times of system peak. Based upon this information, the
10 Public Utilities Board has approved the generation credit Hydro attributes to
11 Newfoundland Power in the Cost of Service study. The most recent such
12 decision on this topic is found in Order No. P.U. 7 (2002-2003), at pages 114,
13 and 115.
