

1 Q. Regarding Exhibit JRH-3 please provide a copy of Tables 2-1, 3-1, 3-2 and
2 3-3 for both the situation had NP left the 15 MW gas turbine on the Burin
3 Peninsula throughout the period, and the situation with the 15 MW gas
4 turbine moved elsewhere.

6

7 A. As indicated in the response to IC-335 NLH, the tables in Exhibit JRH-3
8 reflect “the situation with the 15 MW gas turbine moved elsewhere.”

9

10 Had NP left the 15 MW gas turbine on the Burin Peninsula throughout the
11 period; Tables 3-1 and 3-2 would be unchanged as the turbine remains
12 connected to the Island Interconnected System. The attached tables show
13 the impact of the change on Tables 2-1 and 3-3.
