

1 Q. With respect to the evidence filed in May 2003, are the annual prices for No.
2 6 fuel oil the weighted average purchase prices taking into account the
3 variation in monthly prices and monthly purchases? If not, provide the
4 weighted average purchase price for each year from 2002 to 2005 inclusive.

5

6

7 A. The annual fuel prices in Schedule VIII of the Production evidence are the
8 weighted average purchase prices taking into account the variation in
9 monthly prices and monthly purchases. However, for 2004 PIRA did not
10 provide a monthly forecast and therefore weighting is not applicable.

11

12 The forecast annual value for 2005 consistent with the forecast used in
13 preparing the evidence is \$28.20 per barrel.
