

1 Q. Provide the current wheeling charge for Island Industrial Customers, how it
2 was determined, when it was last changed, and why it was then changed?

3

4

5 A. The current wheeling rate is \$0.00471 per kilowatt hour. The rate was
6 determined from the 2002 Test Year Final Cost of Service, previously filed
7 with the Board at the conclusion of Hydro's 2001 rate application as
8 Schedule G August 2002. Please refer to IC-1(a), page 30, for the detailed
9 calculation.

10

11 This rate was last changed on September 1, 2002 in accordance with Order
12 No. P.U. 7 (2002-2003).
