

- 1 Q. Regarding IC-306 NLH, provide all test year COS assumptions regarding
2 payments to NP for operation of their thermal generation, including the
3 number of kW.h generated and number of hours run for each unit type.
4 Indicate the total costs assumed and where these amounts show up in the
5 COS study.
6
7
8 A. There are no payments or energy generated assumptions made for NP
9 thermal generation for the COS.
