

1 Q. Regarding NP 90: Please reconcile the 2002 Actual fuel prices with the
2 respective Sept 2002 to December 2002 RSP reports.

3

4

5 A. The RSP average prices shown on page 10 of the RSP reports are the
6 inventory costs, which reflect a blending of shipments with pre-shipment
7 inventory. The actual fuel prices shown in NP-90 are for the price paid for
8 the shipments. Following each shipment the cost of fuel from inventory
9 changes and the revised inventory prices are shown in the RSP reports on
10 page 10. Each of the purchase prices shown in NP-90 is the weighted
11 average price for all shipments in that month.
