4

5 A. Please find attached the response to IC-14 from the 1995 Isolated Rural
6 Rate Hearing.

- Q. What was the difference between revenue recovered and cost of service (i.e. the deficit) for each of 1992, 1993 and 1994 for each of the following:
- (a) the Isolated Rural Customers as a whole?
 - (b) the Labrador Isolated Rural Customers?
 - (c) the St. Anthony-Roddickton Isolated Rural Customers?
 - (d) the Island Isolated Rural Customers excluding the St. Anthony-Roddickton Rural Customers?
- A. Revenues, costs and deficit for the Isolated Rural areas are shown below. Since the Cost of Service for Isolated Rural Systems is calculated in total and not by geographical region, the deficit for the other areas requested is not available.

Isolated Systems	1992	1993	1994
Revenues	10,336,202	10,529,103	10,592,230
Cost of Service	34,990,968	34,541,647	35,084,936
Deficit	24,654,766	24,012,544	24,492,706
