

- 1 Q. Are these distribution transmission costs from Churchill Falls to Happy Valley
2 – Goose Bay expected to change in the next five years? If so how?
3
4
- 5 A. A new transformer is planned to be added in 2004, at a capital cost of
6 approximately \$1.2 million. Other transmission expenses for the Labrador
7 Interconnected System are not expected to change significantly over the
8 upcoming five-year period.
