

1 Q. Are there any transmission facilities that service both the Happy Valley –
2 Goose Bay area and the Labrador West area? If so please explain.

3

4

5 A. Yes, the 230 kV buses at Churchill Falls connect both the Happy Valley –
6 Goose Bay area and Labrador West area to the Churchill Falls Generating
7 Station. However, these 230 kV transmission facilities are owned by
8 Churchill Falls (Labrador) Corporation and, as such, their associated costs
9 are not included in the Cost of Service.
