

NLH-161 PUB

What regulatory proceedings has Dr. Waverman appeared at before, what were his recommendations, and what was the board decision in each case?

- A. I have not kept detailed records of the regulatory proceedings I have appeared at. There are two sets.

First, as a Board member of the Ontario Energy Board I did make and write cost-of-capital decisions. Second, as an expert witness, I have appeared before the Alberta Energy Resources Conservation Board (gas export and natural gas pipeline hearings), the National Energy Board (gas export and national gas pipeline hearings), the Ontario Energy Board (British Gas purchase of Consumer Gas), the Ontario Court of Appeals (oil pricing and taxation). I have also appeared before Competition Policy authorities on energy matters in Canada.
