

**Reference IC-419 NP, lines 19-21 and IC-420 NP**

**Q. Please provide an estimate of the incremental cost to Newfoundland Power's customers before and after the effect of the Rate Stabilization Account.**

A. The incremental costs to the customers of Newfoundland Power, including (after) the effect of the Rate Stabilization Account, are based on the tail blocks and demand charges of the retail rates. Newfoundland Power's residential and general service rates, including the Rate Stabilization Account adjustment, effective August 1, 2003 are provided as Attachment A.

The tail block energy charges of the retail rates include a Rate Stabilization Account adjustment of 0.326¢ per kWh. The incremental costs to Newfoundland Power's customers before the effect of the Rate Stabilization Account are the tail blocks and demand charges shown in Attachment A, less the effect of the 0.326¢ per kWh Rate Stabilization Account adjustment.
