

NLH-31 IC
2003 NLH General Rate Application

Page 1 of 1

- 1 Q. Under terms of the expired Interruptible "B" contract, could ACCC
2 Stephenville if it wished, not respond to a request to interrupt?
3
- 4 A. No, not without incurring the stipulated costly penalties. The terms of
5 the Interruptible B rate contract appear to provide that "Abitibi shall
6 interrupt its Firm Power in accordance with this Agreement upon
7 receiving an Interruption Request from Hydro" in Article 3.01, and that
8 costly penalties from \$3.00/kW/day up to \$7.00/kW/day would apply if
9 Abitibi failed to interrupt (per Article 5).
