- Q. Please provide the NP hydraulic generation at the time of NP's native peak for each year from 1993 to 2002. Include the average of these values.
 - Newfoundland Power's hydraulic generation at the time of its native peak for each year from 1993 to 2002 is provided in Table 1 below.

Table 1 **Newfoundland Power's Native Peaks**

Newfoundland Power's hydraulic generation at peak does not represent the capability of the hydraulic generation to meet Newfoundland Power's native peak. Newfoundland Power would only have its full hydraulic generation operating at peak if requested to do so by Hydro.
