

1 Q. In the Stone and Webster report "Review of Rate Design for Newfoundland
2 Power" page 15, Chart 1 shows Sample Rate Design Characteristics. In the
3 sample monthly charges, the first block of energy applies to energy
4 consumption up to a maximum of 420,000,000 kWh.

5
6 In which months during 1998 to 2002 has Newfoundland Power's monthly
7 energy purchases exceeded 420,000,000 kWh?

8
9 A. In the years 1998, 2000, 2001, and 2002 Newfoundland Power's monthly
10 energy purchases exceeded 420,000,000 kWh in the months of January,
11 February, March, and December.

12
13 In 1999 Newfoundland Power's monthly energy purchases exceeded
14 420,000,000 kWh in the months of January and December.
