

1    Q.    Of the utilities listed in response to NP-131 NLH, which utilities operate on an  
2           electrical system primarily served by Hydroelectric energy?

3

4

5    A.    The requested information was not obtained during the informal survey.  
6           However, based on general knowledge, BC Hydro is the only utility which  
7           operates on an electrical system primarily served by hydroelectric energy.
