

1 Q. Further to NP-130 NLH: Provide the monthly and annual demand charge
2 required under the rate form proposed by Hydro if the energy charge was set
3 at the 5.13 cents per kWh short-run marginal energy cost of supplying energy
4 at Holyrood.

5
6
7 A. The demand charge under the illustrative demand and energy rate will
8 remain the same. However, if the second block of the energy rate was
9 changed from \$0.0470 / kWh to \$0.0513 / kWh, the first block would change
10 from \$0.0344 to \$0.0340.
