

1 Q. Further to NP-136 NLH: Does the discontinuance of the Interruptible B
2 contract at \$28.20 per kW imply that the incremental cost of demand on the
3 system is less than \$28.20 per kW per year?
4

5
6 A. No, the only implication is that Hydro does not require the capacity
7 contracted for under the interruptible "B" contract.
