

1 Q. Further to NP-53 NLH: Section 5.3.5 of the “Report on a Task Force Review
2 of Operational and Financial Initiatives on Hydro’s Isolated Diesel Systems”
3 discusses a policy on Capital Cost Recovery when generating equipment is
4 installed at the request of a major general service customer. This policy was
5 to be implemented in late 1994. Under this policy would not contributions
6 have been required for the system expansions in Charlottetown and Little
7 Bay Islands? If yes how much?

8

9

10 A. A policy on Capital Cost Recovery when generating equipment is installed at
11 the request of a major general service customer has not been developed.
