

1 Q. **Grant Thornton's Prefiled Evidence**

2 Page 8 – Please provide transmission and distribution losses data for 2000
3 and 2001

4

5

6 A. The transmission and distribution losses reported in the table on page 8 are
7 the sum of the total transmission losses on the Labrador Interconnected
8 System, the total transmission losses on the Island Interconnected System
9 and the total distribution losses on the Isolated Systems. They do not
10 include the distribution losses on the Island and Labrador Interconnected
11 systems. Consistent with the Grant Thornton Report these losses in 2000
12 were 289 GWh and in 2001 were 220 GWh.
