

1 Q. Is Hydro currently serving customers in both Shango Bay and Davis Inlet?
2 What are the plans for decommissioning the service to Davis Inlet?

3

4

5 A. Hydro is currently serving customers in Davis Inlet. In Sango Bay
6 (Natuashish), Hydro is providing management service on behalf of the
7 Federal Government. Once all the residents of Davis Inlet have relocated to
8 Natuashish, Hydro will make application to the Board of Commissioners of
9 Public Utilities for the abandonment of Davis Inlet. Discussions to date with
10 the Federal Government indicate that the full relocation of residents should
11 be completed in 2003 with decommissioning completed by the end of 2004.
