

1 Q. What is the effective average marginal cost to Hydro of power purchased  
2 under the "Power Purchases Island Interconnected Systems" as per  
3 Schedule X. Compare to the marginal cost of Hydro produced hydraulic and  
4 thermal power. (JRH p. 27, line 3)

5  
6

7 A. Please refer to the following table.

<b>Newfoundland &amp; Labrador Hydro Forecast and Actual Power Purchases Effective Average Marginal Systems</b>				
Supplier (\$ kWh)	2002		Forecast 2003	Forecast 2004
	Test Year Final	Actual		
CBPP Secondary	0.0221	0.0245	---	---
ACCC Grand Falls Secondary	---	0.0180	---	---
Star Lake	0.0683	0.0686	0.0697	0.0706
Rattle Brook	0.0710	0.0711	0.0735	0.0746
Corner Brook Cogen	---	---	0.0827	0.0780
Exploits Project	---	---	0.0770	0.0770
NLH Hydraulic Sources	0	0	0	0
Thermal Production Holyrood	0.0414	0.0472	0.0558	0.0472
