

1 Q. For each of the three categories in PUB 163 NLH, please provide the
2 average monthly kWh. If consumption is seasonal, please provide your
3 response in terms of on and off-season average monthly consumption.

4

5

6 A. Based on the 2002 Actual consumption, the average monthly kWh are shown
7 in the table below. The on-season average is June to November with the off-
8 season being the remainder.
