

1 Q. Preamble: “the Lieutenant Governor in Council hereby directs the Board of
2 Commissioners of Public Utilities to: iv) proceed...with implementation of a
3 demand/energy rate structure for general service (commercial) customers in
4 diesel communities...While the rate changes can include elimination of the
5 lifeline block for these general service customers, the new rates should target
6 the current cost recovery level for these customers” (Orders in Council)

7
8 Does Hydro still intend to eliminate the lifeline block for customers referred to
9 in the above policy direction?

10
11
12 A. Yes.
