

1 Q. If the answer to PUB 168 NLH is “yes”, does Hydro propose to maintain
2 “current cost recovery level for these customers” by maintaining current
3 existing rate revenues, current revenue to cost ratios, or some other
4 measure? If the answer to a) is “no”, please explain Hydro’s rationale.

5

6

7 A. Hydro applied the forecast general increase resulting for Hydro’s GRA to the
8 affected customers to determine the total amount of revenue to be collected
9 and then phased out the 700 block collecting the same revenue amount.
