

1   Q.    What, if any, measures, programs or other initiatives has Hydro undertaken  
2           since 2001 to address the high growth in use of electricity as the energy  
3           source for space heating? **(WW p.5, line 19)**  
4  
5

6   A.    Hydro has not taken any specific initiatives since 2001 on the Island  
7           Interconnected System to limit or restrict the use of electricity for space  
8           heating. Hydro continues to encourage wise use of electricity by all it's  
9           customers, and is now placing more emphasis in this area through it's  
10          HYDROWISE program (More information on the HYDROWISE Program can  
11          be found in CA-20 NLH).
