

1 Q. Ref: Schedule B, JDE Migration Assessment Study, p. B-70. Is it known at
2 this time whether a migration to JDE's One World platform will have
3 implications for the configuration of Hydro's server technology?
4

5
6 A. At this time the migration to JDE's One World platform will not have an
7 implication for the configuration of Hydro's Server Technology.
8

9 If a decision is made to migrate to One World an upgrade in the processing
10 will be needed. A migration to One World will utilize the existing types of
11 technology that are now in use at Hydro.
