*Price does not include tax or expedited shipping and is subject to change without notice. Reseller prices may vary. IBM does not warrant non-IBM products. PCs shown here, except for Servers and Network Stations, ship with an operating system. All offers subject to availability. IBM reserves the right to alter product offerings and specifications at any time without notice. IBM is not responsible for photographic or typographic errors.

** An estimated ship date will be included with your order confirmation e-mail. Availability does not determine when your order will ship since inventory status may change before your order is final (following the receipt of any credit or payment authorization) as other orders are processed. "In stock" indicates we currently have at least one of the item in stock. Orders are normally held until all the products on the order are in inventory. "Within 2 weeks" indicates that the product should be available in inventory within 2 weeks. "Within 2-4 Weeks" indicates that the product should be available in inventory in 2-4 weeks. To obtain the latest information about the availability of a specific part number, please call 1-888-SHOP-IBM.

G78 17 inch Black Full Flat Shadow Mask CRT Monitor (16.0 inch Viewable) TCO99

IBM Web Price

\$299.00*Availability: **CALL**[Overview](#)[View all models](#)[Learn more](#)

This new addition to the G Series Monitors family is the first in the series to incorporate cutting-edge flat shadow mask technology, which is in the process of replacing previous-generation FST CRTs (e.g., the IBM G76 monitor) as the industry standard. Flat shadow mask technology significantly reduces glare and minimizes distortion, especially around the edges and in the corners of the screen.

The G78 has a 17-inch (16.0" viewable image size) flat shadow mask CRT. Its award-winning design and choice of colors - Pearl White, Stealth Black or Two Tone Gray/Black - smartly complement the look of your system and workspace. IBM G Series Monitors offer great quality, excellent image clarity and reliability for general business applications. They are designed to meet your expanding business needs, whether in a corporate setting, a small business or a home office.

Features and Benefits:

FLAT SHADOW MASK TECHNOLOGY - For truly accurate images throughout the screen and no distortions at the edges. The G78 is the first in the G Series with this new technology that significantly reduces glare and minimizes distortion.

85KHz HORIZONTAL LINE FREQUENCY - The G78 is capable of running 1280x1024 resolution "flicker-free", reducing eye strain.

ERGONOMIC COMPLIANCE - Pearl white models of the G78 comply with demanding TCO-99 emissions guidelines, while Stealth black models comply with TCO-95 guidelines.

VESA DDC - Plug and play for easy and quick setup.

AWARD-WINNING DESIGN - The G78's award-winning IBM design and choice of colors - Pearl white or Stealth black - smartly complement the look of your system and workspace.
