

1 Q. **Vehicle Replacement:** Provide copies of any and all studies undertaken by
2 Hydro within the past 5 years relative to utilization of its fleet of motor
3 vehicles and/or requirements for motor vehicles.
4

5

6 A. There were no formal reports prepared for Hydro's fleet review. The review
7 entailed evaluation of fleet type and user requirements for the various
8 departments across the Corporation, with conclusions and recommendations
9 drawn following discussions with the affected stakeholders. The results of
10 this review were presented to Executive Management. The proposal for
11 vehicle replacements in 2005 is based on this review, and subsequent
12 management approval.
